

Past Youth Mission Trips

2013 Portland, Maine – The youth once again partnered with Experience Mission to serve the community of Munjoy Hill, where many refugees from war-torn countries in Africa and Asia live. They participated in Kid’s Club at the Root Cellar, served breakfast and lunch at Preble Street soup kitchen, spent a day at Crescent Beach with the children from the community, and painted the stairwell of the tallest building in Portland, a public housing apartment.

2012 New Orleans, Louisiana – While the youth attended the ELCA Youth Gathering in New Orleans they participated in service projects that served the local community.

2011 Osage, West Virginia –The youth partnered with Scott's Run Settlement House, which is a multi-service operation providing for the needs of the citizens of one of the poorest counties in the United States. There they performed home repair and maintenance, similar to what we undertake for local people with Christmas in April.

2010 McDowell County, West Virginia – The youth partnered with Experience Mission to serve the local community. Their work included painting, light construction, landscaping and other efforts to assist people who are physically incapable or financially unable to have the work accomplished any other way.
